

Specialized interventions for teachers, parents and children.

Services are individualized and goals are utilized to meet the social-emotional needs of each student.

## S.T.E.P.S.

### Specialized Therapeutic Educational Program and Supports

The students served by the STEPS classes, generally fall within the low average to above average range. Therefore, the majority of students served who have had poor academic successes are generally intellectually capable of learning and completing assignments but are not “emotionally” available to the task. The program focuses a significant amount of time and attention initially to activities which encourage positive skills and personal management skills. Academic instruction continues to be a part of each student’s daily program but may be modified to accommodate each student’s current emotional/behavioral status.

*\*This is a school-based service, to be provided at the school site*

An interactive assessment process involving a Mental Health Provider, parent, student, and school staff. The purpose is to determine the amount and types of services offered and provided for your student.

This can include personal counseling in a one-to-one and/or group setting.

Therapeutic interventions will be provided to promote academic progress.

Group therapy and parent support provided as needed.
